1 Portrait „Vindobona – Vienna International News“

Welcome to Vienna's most desirable audience, with the largest purchasing power and highest net worth

1.1 Editorial Concept

Vindobona.org is an independent information service designed to provide the international community in Vienna with relevant and exclusive information that will make them more successful in their life and work.

As a result of this conception, Vindobona enjoys a unique readership of expats, diplomats, managers and professionals who, as decision-makers and opinion leaders, represent the highest levels of education, income and wealth and occupy top positions in the fields of diplomacy, business, science and culture.

1.2 Distinction to Competitors

Vindobona differs from comparable media in several ways,

- that we are designed to be a premium portal, and that many members express their explicit interest in our editorial content in the form of paying subscribers,
- that we publish exclusively in the English language, the only relevant language for the international community,
- that we report up-to-date and timely in real time about diplomacy, economy, politics, culture, lifestyle and travel,
- that we publish exclusively online and use the latest Internet technologies to optimally position, link and locate advertising messages, and
- that our services are calculable, trackable and transparent, thus optimizing the campaigns of our partners in terms of advertising impact and advertising efficiency,
1.3 Target Audience

Due to our special and innovative approach, we have a structure of top members which is composed as follows:

- The Vindobona members work in the following organisational forms:
  1) as members of the Diplomatic Corps (Embassies & Consulates) and the International Organizations (UNO, IAEA, OSCE, UNIDO, OPEC and 50 other diplomatic institutions),
  2) as delegated employees at the executive and decision-making levels of the 300 foreign headquarters,

- Vindobona members originate from more than 70 countries (mainly the USA, Great Britain and Germany):

3) as proprietors and managers of professional service companies (i.e. consulting companies, law firms, medical centres, banks, auditing companies, investment companies, tourism companies, cultural institutes, media, trade delegations, architect’s practices, engineering firms) and

4) basically all foreign expats and domestic "Internationals" with intercultural interest and elevated standards.
More than 90% of the members live in Vienna and the surrounding area.

The members cultivate an upscale lifestyle in terms of leisure, culture, health, hospitality, continuing education, consumer goods and travel habits.

2.5 Description of the Vindobona Ads

We offer our advertising partners the following options to place their advertising messages:

**DESKTOP ADS**

1. The **Superbanner** is the banner in large format and fills (almost) the entire upper screen area. This interactive advertising medium in horizontal format is placed in full width above the header of the website. The Superbanner offers a lot of attention and creative freedom.

2. The **Full Banner** is a classic among the internet advertising forms: The advertising medium can be seen directly in the visible field, above the content. This desirable placement ensures easy handling and high attention for your campaign.

3.-6., 9. The **Square Banner** and **Rectangle** are integrated into the editorial environment (article and category level) and are surrounded by it on at least three sides. Placement in the editorial environment ensures additional attention. It also supports the credibility of the advertisement. The **Medium Rectangle**, fits into the content pages. The placement in the middle of the page guarantees a high advertising impact and a lot of creative leeway. The framing of the editorial content increases the credibility of your advertising. Due to the enormous size as well as the exclusive placement, the **Large Rectangle** and the **Vertical Rectangle** offer you a lot of space for design and information. Enormously high attention, advertising media learned and accepted by the user, and the advantage that these ads are always in the user's focus are their USPs.

7. The **Custom Banner I** (180x90) in the upper right-hand part of the screen is a real "insider tip" due to its special placement on all pages.

8. the **Custom Banner II** (180x60) in the right screen area in a prominent position appears on all content pages. (The exact position depends on any pre-positioned banners or full sponsoring banners).

10.-11. **Vertical Banners I** and **II** are the vertical version of the Full Banner.

12. The **Skyscraper** is positioned on the right side next to the editorial content in the directly visible area. This form of advertising represents an advertising medium learned and accepted by the users and ensures an attention-grabbing placement next to the content.

13. **Site Branding** represents our highest exclusivity and includes a combination of five banners (Superbanner, Medium Rectangle, Custom Banner I, Vertical Banner II) including the large-area Mobile Banner II, as well as optionally the coloring of the website in your desired color.

14.-16. Selected partners have the possibility to place their logo in a prominent position on all pages in the context of **Full Sponsoring** (Platinum, Gold or Silver) in such a way that a direct connection between you as an advertising partner and the international community can be established.

**MOBILE ADS**

1.-3. Mobile ads in the accepted classic sizes **Mobile Banner I** (= Mobile Leaderboard, 320x100), **Mobile Banner II** (= Medium Rectangle, 300×250) and **Mobile Banner III** (= Full Page, 320x480) are non-intrusive but attention-grabbing advertising formats for (almost) all mobile devices.
